

ONLINE ONE WEEK ART THERAPY FOUNDATION COURSE – 2021

This course is intended for people who may consider art therapy as a career and want to train as an Art Therapist. It is also useful for healthcare workers who want to gain a better understanding of art within a care context. This course will offer an opportunity to gain a deeper understanding of art therapy with different client groups. It also has an experiential element, with a whole day of workshops using a range of art making directives to help participants integrate theories learnt on the course. No previous formal experience of art making is required, but it is important to be prepared to take part in workshops.
